

ABOUT US

We are a team of individuals passionate about providing cleaning, sanitizing and disinfectant solutions that deal with the public health issues we are faced with on a daily basis. Our products are intentionally made to promote health and sustainability. The main ingredient in all of our products is hypochlorous acid (HOCl), derived from salt minerals and water. HOCl is a compound produced naturally by the human body as part of our immune systems and is pH neutral, which causes less irritation and keeps you and your workers healthy. Our chemists replicate this compound by running an electrical charge through a combination of salt and water. The power is in the science and chemistry, not toxic chemicals. You have HOCl in your own body to help it fight infection on the inside, and now you have HOCl in Clean Republic to fight from the outside, all without having to sacrifice the integrity of a clean environment or the health of those you care for.

THE SECRET SAUCE

Forget synthetic chemicals and say farewell to toxic fumes. Our process only requires **salt, water, and electricity** to produce hypochlorous acid (or HOCl), the main ingredient found in Clean Republic. The challenge with HOCl has always been in stabilizing the solution to make it commercially viable. It took a decade of research and development, but our chemists discovered how to do this without using any additives which would jeopardize the purity of the product. It's nature at its purest combined with scientific evidence.

HOW DOES IT WORK?

Our proprietary solution is created through an electrolytic process. It occurs by temporarily modifying the properties of water, by passing weak salt brine through an electrolytic cell and temporarily changing the properties of the salt water into a powerful oxidizing agent exhibiting highly effective antimicrobial properties. This electro-chemical reaction reproduces hypochlorous acid (HOCl), a substance found naturally in the human body that is known for fighting infection and bacteria.

#InHOClWeTrust

THE PRODUCT LINE

We offer commercial grade sanitizers and disinfectants, and powerful everyday all-purpose cleaners. All of our solutions are eco-friendly, less toxic and sustainable.

DISINFECTANT + SANITIZER

Clean Republic Disinfectant + Sanitizer is an EPA approved hospital grade disinfectant. Clean Republic Disinfectant + Sanitizer has demonstrated effectiveness against viruses similar to COVID-19 on hard, nonporous surfaces. Therefore, Clean Republic Disinfectant + Sanitizer can be used against COVID-19 when used in accordance with the directions for use against Norovirus and Rhinovirus type 16 on hard, non-porous surfaces. Refer to the CDC website at <https://www.cdc.gov/> for additional information.

- ★ COMMERCIAL GRADE
- ★ EPA APPROVED FOR HOSPITAL USE
- ★ EPA REGISTERED FOR USE AGAINST SARS-CoV-2
- ★ KILLS 99.99% OF BACTERIA + VIRUSES
- ★ NO HARSH CHEMICALS OR TOXIC FUMES

TOP 4 WAYS CLEAN REPUBLIC DISINFECTANT + SANITIZER IS SUPERIOR

EPA REGISTERED HOSPITAL GRADE DISINFECTANT TO KILL SARS-CoV-2

The Clean Republic Disinfectant + Sanitizer is a category IV disinfectant per EPA standards, placing it among the least toxic of all disinfectants on the market.

SAVES TIME & MONEY

Save time and money as this product also acts as an odor eliminator and sanitizer.

GENTLE & WITHOUT SYNTHETIC CHEMICALS

Clean Republic Disinfectant + Sanitizer is a simple solution for a healthier business or home. Because it's free of synthetic chemicals and toxic fumes, it makes an effective sanitizer for food contact surfaces and is gentle for use in public or common spaces.

MADE IN THE USA

We are proud to be made in the USA, with manufacturing facilities in Colorado, California, and the Carolinas.

ALL-PURPOSE EVERYDAY CLEANERS

Our All-Purpose Everyday Cleaners are made using the powerful ingredient Hypochlorous Acid (HOCl).

We aim to provide our customers with peace of mind, knowing that they are cleaning their homes with our powerful HOCl cleaner and deodorizer which is free of synthetic chemicals, toxic fumes, and is completely safe for use around humans, animals, and plants.

ON-THE-GO (3.4oz)

Our On-The-Go Cleanser is a multi-tasking must-have!

Spray on high-touch surfaces like doorknobs, handles, railings, seat belts, menus and more. Or place in every room of your home or business to encourage convenient daily cleaning. No need to wipe, just spray and go.

UPC: 736530890674

THE BIG BANG (1gal)

Our All-Purpose Cleaner gallon offers a lot of bang for your buck with our 10:1 ratio. Make 10 gallons by mixing 1 part solution to 10 parts water.

This powerful cleaner and deodorizer is free of synthetic chemicals and toxic fumes and is designed for use around humans, animals, and plants.

UPC: 736530890629

READY-TO-SPRAY (16oz)

Our 16oz is intended for everyday use and ideal for big box retailers to sell to families to use for daily cleaning in their homes.

This less toxic cleaner is eco-friendly and ready-to-spray, no mixing required.

UPC: 736530890605

TOP 4 WAYS CLEAN REPUBLIC ALL-PURPOSE CLEANER IS SUPERIOR

POWERFUL & ALL-NATURAL

Don't expose the ones you love to harmful chemicals and toxic fumes! Our APC contains hypochlorous acid (HOCl), a powerful solution that naturally occurs in the human body making it a very powerful deodorizer and cleaner, and safer to use around your family and pets.

TRULY LESS TOXIC

Our All-Purpose Cleaners doesn't contain any synthetic chemicals, carcinogens, allergens, fragrances, dyes, preservatives, skin irritants or respiratory irritants. This also makes them eco-friendly.

SAVES TIME & MONEY

This multi-action formula can be used to clean *and* deodorize! Use on everything from the windows, to the walls! Don't forget high touch areas like knobs, handles and railings. Plus floors, counters, showers/tubs, appliances, and more.

MADE IN THE USA

We are proud to be Made in the USA, with manufacturing facilities in Colorado, California, and Tennessee.

MEDICAL STRENGTH HAND CLEANSER

Your customers and team members will love our multitasking Hand Cleanser. This cleanser is eco-friendly, non-cytotoxic, alcohol-free and comes in a convenient credit card dispenser. This all-natural Hand Cleanser is made using hypochlorous acid (or HOCl), the infection-fighting compound found in the human body. This hand cleanser is non-irritating to skin and contains no steroids, triclosan or antibiotics.

UPC: 736530890698

BENEFITS:

- Helps to halt the spread of germs
- Hydrates and heals
- Convenient and travel friendly

UPC: 631851541789

TOUCHLESS AUTOMATIC HAND DISPENSER (Pre-Order!)

Place our Touchless Automatic Hand Dispenser at every entrance of your business, in high-traffic reception areas, waiting rooms, and employee lounges to encourage convenient cleaning, and to help stop the spread of germs.

BENEFITS:

- 1,000 ML
- Motion Activated
- Steam and Spray features
- Convenient Placement - countertop, wall mount + floor standing option
- Easy to assemble and refill
- Operates with 4 D batteries

HAND CLEANSER REFILL

Use to refill hand cleanser for cleaner, healthier, happier hands. This cleanser is eco-friendly, non-cytotoxic, alcohol-free and comes in a one-gallon size. This all-natural Hand Cleanser is made using hypochlorous acid (or HOCl), the infection-fighting compound found in the human body. This hand cleanser is non-irritating to skin and contains no steroids, triclosan or antibiotics.

BENEFITS:

- Helps to halt the spread of germs
- HOCL Hydrates and heals
- Non-Toxic & Alcohol-Free

UPC: 631851541772

READY TO REDEFINE CLEAN?

Yes, you are! Consider us a champion of your company and your biggest fan. We're here to help ensure your business (no matter its size) is ready to reopen! Stay healthy, prepared and vigilant by choosing from one of our easy, flexible corporate packages.

RECOMMENDED PACKAGES

These are recommended packages designed to prepare your business to reopen. We also offer easy custom packages to help you adjust to a new frequency of disinfecting and everyday cleaning.

SIZE: 1,000 SQUARE FEET

CLEANING PACK

- ✓ 1 Case of 4 Gallons Disinfectant+Sanitizer
- ✓ 2 Gallons of All-Purpose Cleaner
- ✓ 6 Disinfectant & APC Refill Bottles
- ✓ 1 Touchless Automatic Hand Dispenser
- ✓ 1 Gallon of Hand Cleanser Refill
- ✓ 1 EMist Handheld Electrostatic Sprayer

RETAIL PACK

- ✓ 1 Case of Hand Cleansers in POP Display (24 units)
- ✓ 1 Case of 3.4oz in POP Display (16 units)

SIZE: 5,000 SQUARE FEET

CLEANING PACK

- ✓ 6 Cases of 4 Gallons Disinfectant+Sanitizer
- ✓ 4 Gallons of All-Purpose Cleaner
- ✓ 20 Disinfectant & APC Refill Bottles
- ✓ 2 Touchless Automatic Hand Dispensers
- ✓ 1 Gallon of Hand Cleanser Refill
- ✓ 1 EMist Handheld Electrostatic Sprayer

RETAIL PACK

- ✓ 2 Cases of Hand Cleansers in POP Display (48 units)
- ✓ 2 Cases of 3.4oz in POP Display (32 units)

SIZE: 10,000+ SQUARE FEET

CLEANING PACK

- ✓ 12 Cases of 4 Gallons Disinfectant+Sanitizer
- ✓ 6 Gallons of All-Purpose Cleaner
- ✓ 36 Disinfectant & APC Refill Bottles
- ✓ 4 Touchless Automatic Hand Dispensers
- ✓ 2 Gallons of Hand Cleanser Refills
- ✓ 1 EMist Backpack Electrostatic Sprayer

RETAIL PACK

- ✓ 3 Cases of Hand Cleansers in POP Display (72 units)
- ✓ 3 Cases of 3.4oz in POP Display (48 units)

Basic Standard Operating Procedures & SDS

The cleaning program works as follows:

High-contact surfaces:

1. Disinfect / Sanitize with our Disinfectant + Sanitizer 1-2 times per day
2. Clean with our All-Purpose Cleaner after each client and/or customer or as needed

Tools

1. Disinfect / Sanitizer with our Disinfectant + Sanitizer after each client (soak time - 10min)

This program has been designed for three main reasons:

1. To meet State mandated cleaning requirements
2. To ensure an extremely high standard of cleaning for you customers
3. To keep costs low

Product Instructions: Disinfectant + Sanitizer is designed to kill pathogens. While our All-Purpose Cleaner is designed to clean surface debris and halt the spread of pathogens or in other words remove germs. Thus, the All-Purpose Cleaner can be used as much as needed in between the deeper cleans. This is the program that we have rolled out across several industries and companies big and small alike.

FREQUENTLY ASKED QUESTIONS (FAQ'S)

Q: What makes Clean Republic products different from other cleaning products?

A: Our main ingredient is hypochlorous acid (HOCl), a substance found naturally in the human body, and replicated by scientists by running an electrical charge through a combination of salt and water. This electro-chemical reaction reproduces hypochlorous acid within a solution now known as anolyte water. This has paved the way for a new generation of health, healing and cleanliness. It is nature at its purest, combined with scientific evidence.

Q: What is HOCl?

A: Hypochlorous Acid (HOCl) is a compound produced by the human body and is an integral part of immune response (inside the body). The HOCl in our body kills dangerous microorganisms as a antimicrobial making it equally effective against bacteria, viruses and fungi (outside the body).

Q: How does HOCl work?

A: HOCl works to break down the cells that are creating an infection by destroying the cell membrane and its DNA, thus halting its replication or growth process. The human body produces HOCl to reverse markers of epidermal aging, protect against environmental aggressors and cleanse the skin. When utilized as an application outside the human body, PH-neutral HOCl solution works in much the same way.

Q: Are you approved by the Environmental Protection Agency (EPA)?

A: Yes, our Disinfectant+Sanitizer is EPA approved as a hospital grade Disinfectant and Sanitizer. Our All-Purpose Cleaner is not approved by the EPA and is not considered to be a disinfectant or sanitizer.

Q: Do your products kill Coronavirus?

A: Clean Republic Disinfectant+Sanitizer has demonstrated effectiveness against viruses similar to COVID-19 on hard, nonporous surfaces. Therefore, Clean Republic Disinfectant+Sanitizer can be used against COVID-19 when used in accordance with the directions for use against Norovirus and Rhinovirus type 16 on hard, non-porous surfaces. Refer to the CDC website at <https://www.cdc.gov/> All-Purpose Cleaner is not registered with the EPA and thus does not make any specific kill claims.
